digested from og mandino s phenomenally bestselling the greatest salesman in the world here are the salesman s 10 fundamental principles to live by along with 250 affirmations and guiding points handy pocket sized edition

in this study of the japanese jeweled pagoda mandalas halle o'neal reveals the entangled realms of sacred body beauty and salvation much of the previous scholarship on these paintings concentrates on formal analysis and iconographic study of their narrative vignettes this has marginalized the intriguing interplay of text and image at their heart precluding a holistic understanding of the mandalas and diluting their full import in buddhist visual culture word embodied offers an alternative methodology developing interdisciplinary insights into the social religious and artistic implications of this provocative entwining of word and image o'neal unpacks the paintings revolutionary use of text as picture to show how this visual conflation mirrors important conceptual indivisibilities in medieval japan the textual pagoda projects the complex constellation of relics reliquaries scripture and body in religious doctrine practice and art word embodied also expands our

thinking about the demands of viewing recasting the audience as active producers of meaning and offering a novel perspective on disciplinary discussions of word and image that often presuppose an ontological divide between them this examination of the jeweled pagoda mandalas therefore recovers crucial dynamics underlying japanese buddhist art including invisibility performative viewing and the spectacular visualizations of embodiment

this first western language translation of one of the great books of the daoist religious tradition the taiping jing or scripture on great peace documents early chinese medieval thought and lays the groundwork for a more complete understanding of daoism s origins barbara hendrischke a leading expert on the taiping jing in the west has spent twenty five years on this magisterial translation which includes notes that contextualize the scripture s political and religious significance virtually unknown to scholars until the 1970s the taiping jing raises the hope for salvation in a practical manner by instructing men and women how to appease heaven and satisfy earth and thereby reverse the fate that thousands of years of human wrongdoing has brought about the scripture stems from the beginnings of the daoist religious movement when ideas contained in the ancient laozi were spread with missionary fervor among the population at large the taiping jing demonstrates how early chinese medieval thought arose from the breakdown of the old imperial order and replaced it with a vision of a new more diverse and fair society that would integrate outsiders in particular women and people of a non chinese background

in 648 ce tang imperial authorities collected every copy of the writ of the three sovereigns sanhuang wen from the four corners of the empire and burned them the formidable talismans at its core were said not only to extend their owners lifespan and protect against misfortune but also propel them to stratospheric heights of power elevating them to the rank of high minister or even emperor only two or three centuries earlier this controversial text was unknown in most of china with the exception of jiangnan in the south where it was regarded as essential local lore in the span of a few generations the writ of the three sovereigns would become the cornerstone of one of the three basic corpora of the daoist canon a pillar of daoism and a perceived threat to the state this study the only book length treatment of the writ of the three sovereigns in any language traces the text s transition from local tradition to empire wide institutional religion the volume begins by painting the social and historical backdrop against which the scripture emerged in early fourth century jiangnan before turning to its textual history it reflects on the work s centerpiece artifacts the potent talismans in celestial script as well as other elements of its heritage namely alchemical elixirs and true form diagrams during the fifth and sixth centuries with daoism coalescing into a formal organized religion the writ of the three sovereigns took on a symbolic role as a liturgical token of initiation while retaining its straightforward language of sovereignty and strong political overtones which eventually led to its prohibition the writ endured however and later experienced a revival as its influence spread as far as japan despite its central role in the development of institutional daoism the writ of the three sovereigns has remained an understudied topic in chinese history its fragmentary textual record combined with the esoteric nature of its content have shrouded it in speculation this volume provides a lucid reconstruction of the text s hidden history and enigmatic practices while shedding light on its contributions to the religious landscape of medieval china

volume 125 of the proceedings of the british academy contains 15 lectures delivered at the british academy in 2003

this volume examines the progress of chinese art during the time period of the five dynasties northern and southern song liao western xia jin dynasties as well as

the yuan dynasty a special focus lies on the analysis of cultural policies adopted during the reign of the respective dynasties and their effects on the development of dance court music and drama a general history of chinese art comprises six volumes with a total of nine parts spanning from the prehistoric era until the 3rd year of xuantong during the qing dynasty 1911 the work provides a comprehensive compilation of in depth studies of the development of art throughout the subsequent reign of chinese dynasties and explores the emergence of a wide range of artistic categories such as but not limited to music dance acrobatics singing story telling painting calligraphy sculpture architecture and crafts unlike previous reference books a general history of chinese art offers a broader overview of the notion of chinese art by asserting a more diverse and less material understanding of arts as has often been the case in western scholarship

smart science design technology represents the proceedings of the 5th international conference on applied system innovation icasi 2019 which was held in fukuoka japan april 12 18 2019 the conference received more than 300 submitted papers from at least 20 different countries whereby one third of these papers was selected by the committees and invited to present at icasi 2019 the resulting book aims to provide an integrated communication platform for researchers active in a wide range of fields including information technology communication science applied mathematics computer science advanced material science and engineering major breakthroughs are being made by interdisciplinary collaborations between science and engineering technologists in academia and industry within this unique international network smart science has emerged as a separate discipline involving innovative practices methodologies and processes

by the time the gutenberg bible appeared in germany in 1456 printing had already been known in the east for some five hundred years the chinese had made movable type from ceramic and from wood in the eleventh century and the koreans developed the technique of casting type in bronze iron and various alloys in east asia this revolutionary technology was intimately connected with the art of calligraphy which reached supreme aesthetic heights especially in china it is this aspect of east asian printing that gives it an impressive place in the history of art this book carefully examines the influence of the different styles of calligraphy on the making of books both before and after the advent of printing first exploring early forms of writing such as inscriptions on bone bamboo strips and bronzes the authors go on to trace the historic stages of bookmaking from handwritten scrolls on silk and paper to block printed books and finally the products of early modern times printined with movable metal type illustrated with photographs of one hundred and twenty nine items selected for exhibition at the art museum princeton university this book is also a catalogue of treasures from the university s gest library a collection of almost half a million rare and valuable volumes in chinese japanese korean and other languages book jacket
